

#5

Could Equity-Indexed Annuities show a rate of return roughly double those of C.D.s' not only last year but over the past three years, *with 0% Risk to My Principal?*

YES! Since 1997 Average Annual Returns for E I A's are approximately 10%-14%. Thus E I A's generated a Total Return of approximately 30%-45%. By Comparison C. D.'s returned roughly 15%-18% over the same *Three-Year Period*.*

C. D.'s

15% - 18%

Equity-Indexed Annuities

30% - 45%

Note* The performance statistics mentioned above were taken from the Federal Reserve in St Louis, MO, regarding 6 month C.D.'s
