

#6

Could you summarize the Equity-Indexed Annuity material presented thus far?

YES!

#1 E I A's could be the perfect solution for *retirement minded investors* who want to share in the Upside-Side Potential - "The Reward of the Stock Market" with absolutely No Market Risk.

#2 *If you want Interest Rates that are on the average higher than those of typical fixed products (as we saw on the previous page comparing C. D.'s and E I A's for the last three years, *15%-18% for C.D.'s vs. 30%-45% for E I A's*), *E I A's Could be the Obvious Choice!*

#3 *If you have done well in the Stock Market, but are now concerned about the future performance of the Stock Market, *E I A's Could be the Obvious Choice!*
