

# Solid protection no matter what your client's risk tolerance.

When your clients have families depending on them...they need coverage with *permanent* protection.

Most families' bills are based on total household income and if one spouse dies, the surviving spouse becomes solely responsible for those debts! Your clients don't need coverage with a movable target ...they need coverage they can count on under any circumstances!

## Give your clients **LifeScape® Whole Life!**

You'll never have to worry about this policy living up to its potential, regardless of what happens in the stock market... tomorrow, next year or twenty years from now!

## Call us today for the details!

I'll give you all the details about LifeScape® and the opportunities available.
